## RB-4P
4ch POE NVR Extension Board

Feature：

➢ conform to IEEE 802.3af

➢ The maximum transmission power is up to 15.4W

➢ The maximum power supply distance is 100m

➢ Support POE extended NVR board

➢ 4ch PoE RJ45 interface butt front-end PoE IPC，1ch RJ45 access LAN

➢ Reservation network port extension seat, docking PoE extended NVR board

➢ Reservation MIDO bus extension seat for VLAN

➢ 1ch 12V power supply output to PoE extended NVR

MDIO BUS · 79.4mm · 12V OUTPUT · NET · 88mm · 48V INPUT · 4*POE · RJ45

Parameters：

Model	RB-4P
Network extended seat	Support for docking with NVR
POE(power supply)	15.4W output
POE(Data exchange)	Automatic recognition PoE IPC
MDIO BUS	Support the functional configuration of the board
standards	IEEE 802.3，IEEE 802.3u，IEEE 802.3af
Interface	POE：4*10/100M RJ45 WLAN：1*10/100M RJ45
Input power supply	48V
Output power supply	Output 12V to NVR board
Work environment	Temperature:0℃-＋55℃ , Humidity:10%－90%RH , Atm:86kpa－106kp
Dimension	88mm*79.4mm
Weight	A total of about 78g
